

BB⁺PRO FOOT SPRAY

In conditions common to foot skin, such as odor (**bromodosis**) and fungal tendency (**Tinea pedis**) caused by microbial imbalance (**dysbiosis**), Bbpro Foot Spray is **a probiotic-supported topical spray designed to support microbial balance.**

Bbpro Foot Spray Ingredients

Bacillus subtilis (**Probiotic bacteria**)

Bacillus amyloliquefaciens (**Probiotic bacteria**)

Melaleuca alternifolia leaf oil (**Tea Tree Oil**)

Zinc lactate

Aloe barbadensis leaf extract (**Aloe Vera Extract**) Allantoin

Menthol Glycerin Propylene glycol Aqua (**water-based formulation**)

PRODUCT APPROACH

Unlike the classic antiseptic approach, Bbpro Foot Spray does not simply eliminate microorganisms; **it aims to restore the physiological microbial balance.**

FEATURE – BENEFIT

Contains probiotic support → Supports microbial balance

Dual probiotic power:

Bacillus subtilis + B. amyloliquefaciens → An approach targeting both odor and fungal balance

Contains zinc lactate → Helps reduce foot odor

Tea Tree Oil Ext. → Natural antifungal activity that helps maintain hygienic integrity

Contains Aloe Vera + Allantoin → Supports the skin barrier and provides comfortable application

Contains menthol → Provides a refreshing feeling

BB⁺PRO
FOOT SPRAY

CLINICAL APPROACH

Two common foot skin problems
stem from microbial imbalance (dysbiosis):

Excessive bacterial growth causes foot odor: **Bromodosis.**

A tendency toward foot fungus caused by *Trichophyton rubrum*
leads to Tinea pedis.

With its balance-focused approach against dysbiosis, Bbpro
Foot Spray **helps with the biological control of foot odor and
fungal tendency.**

WHEN CAN IT BE RECOMMENDED?

Foot odor (**bromodosis**)
Microbial growth after sweating
Susceptibility to foot fungus (**Tinea pedis risk**)
Athletes and people who wear **closed shoes**
Microbial balance support after antifungal treatment

ADVANTAGES

Not an antiseptic → balance-focused probiotic approach
Helps reduce recurrence
Offers topical and safe use
Suitable for daily use
Addresses odor and fungal balance together

SAFETY INFORMATION

For topical use
Not absorbed systemically
Contains no antibiotics
Contains no steroids
Suitable for long-term use
