Open Area Maintenance and Appearance Management Solution

For a Tidy and
Controlled Look in
Public Spaces

BB⁺PRO

Organic acid-based
special formula

No persistent synthetic
herbicides

Free of heavy chemicals
and strong solvents

Ready to use
(RTU)

The practical solution partner for open area maintenance teams

WHAT IS BB+PRO RTU?

BB+PRO RTU is a ready-to-use, **organic acid-based maintenance solution** developed to support maintenance work on **roadsides, curbs, sidewalks, medians** and other open areas.

Thanks to its special formula, it helps maintain a tidy, controlled appearance in open areas. It offers a practical approach for municipal maintenance teams, parks and gardens departments, highway maintenance crews and landscaping applications.

WHY BB+PRO RTU?

Maintenance work in public spaces often requires intensive labor, repeated applications and high operating costs. **Keeping roadsides, curb lines, sidewalk edges and hard-to-reach areas tidy has become an important maintenance issue.**

BB+PRO RTU:

- Contains a special **organic acid-based** formula.
- Contains no **persistent synthetic herbicides**.
- Free of **heavy chemicals and strong solvents**.
- **Ready to use**, no dilution required.
- Suitable for a targeted application approach.
- Supports the operations of open area maintenance teams.
- Helps keep public spaces looking tidy.

AREAS OF USE

• **Roadsides • Curbstones • Sidewalk edges • Medians • Parks and gardens • Cemeteries • Open storage yards • Industrial facility surroundings • Municipal maintenance applications**

APPLICATION

BB+PRO RTU is ready to use. No dilution required. It is applied directly to the target areas. Best results are obtained in dry weather when no rain is expected.

STORAGE CONDITIONS

- Keep in the original packaging.
- Protect from direct sunlight.
- Store in a cool, dry place.
- Keep out of reach of children.
- Store away from food and animal feed.

SAFETY INFORMATION

The product is acidic. Avoid direct contact with eyes and skin. Use of suitable personal protective equipment during application is recommended.

BB⁺PRO

FIELD APPLICATION RESULTS

A Tidy and Controlled Look in Open Areas

Supports maintenance work in public spaces.

1

BEFORE APPLICATION

Unwanted plant growth along roadsides, curbs and sidewalks.

2

AFTER 4 HOURS

Visible change begins in plants in the treated areas.

3

AFTER 72 HOURS

Plants show clear signs of drying.

4

AFTER 7 DAYS

A tidy, clean look is achieved in the treated areas.
